

Istituto Tecnico Trasporti e Logistica «G. Da Verrazzano»

www.daverrazzano.it

The school overlooks the main port of the Silver Coast in Porto S. Stefano

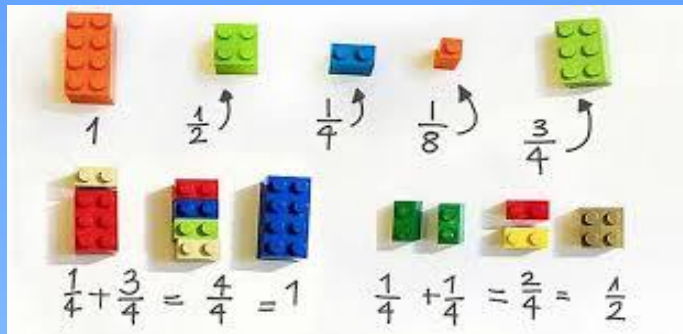

Our school...

- ...is an upper secondary school offering technical and highly specialized scientific and technical training over a 5-year period
- The first 2 years are common to all upper secondary schools
- The last 3 years of studies deal with maritime transport and logistics, preparing students to enter the merchant navy, either as deck officers or engine officers

Mathematics

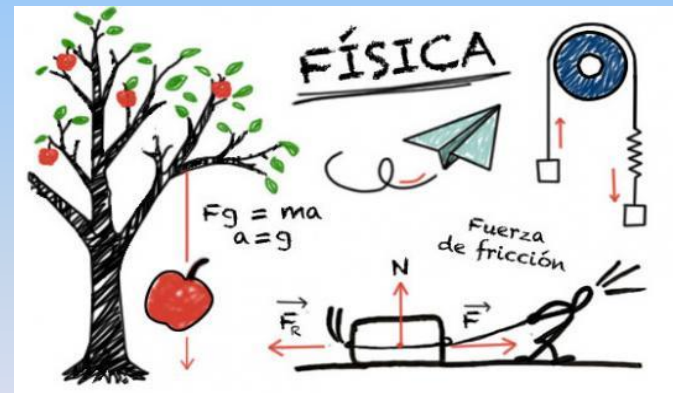

Chemistry and the atmosphere

during the first 2 years

Earth sciences and Space

Physics

these subjects will be needed during ...

Astronomy

Navigation and charting courses

... the final 3 years

Logistics

Electrical engineering

Mecchanical engineering

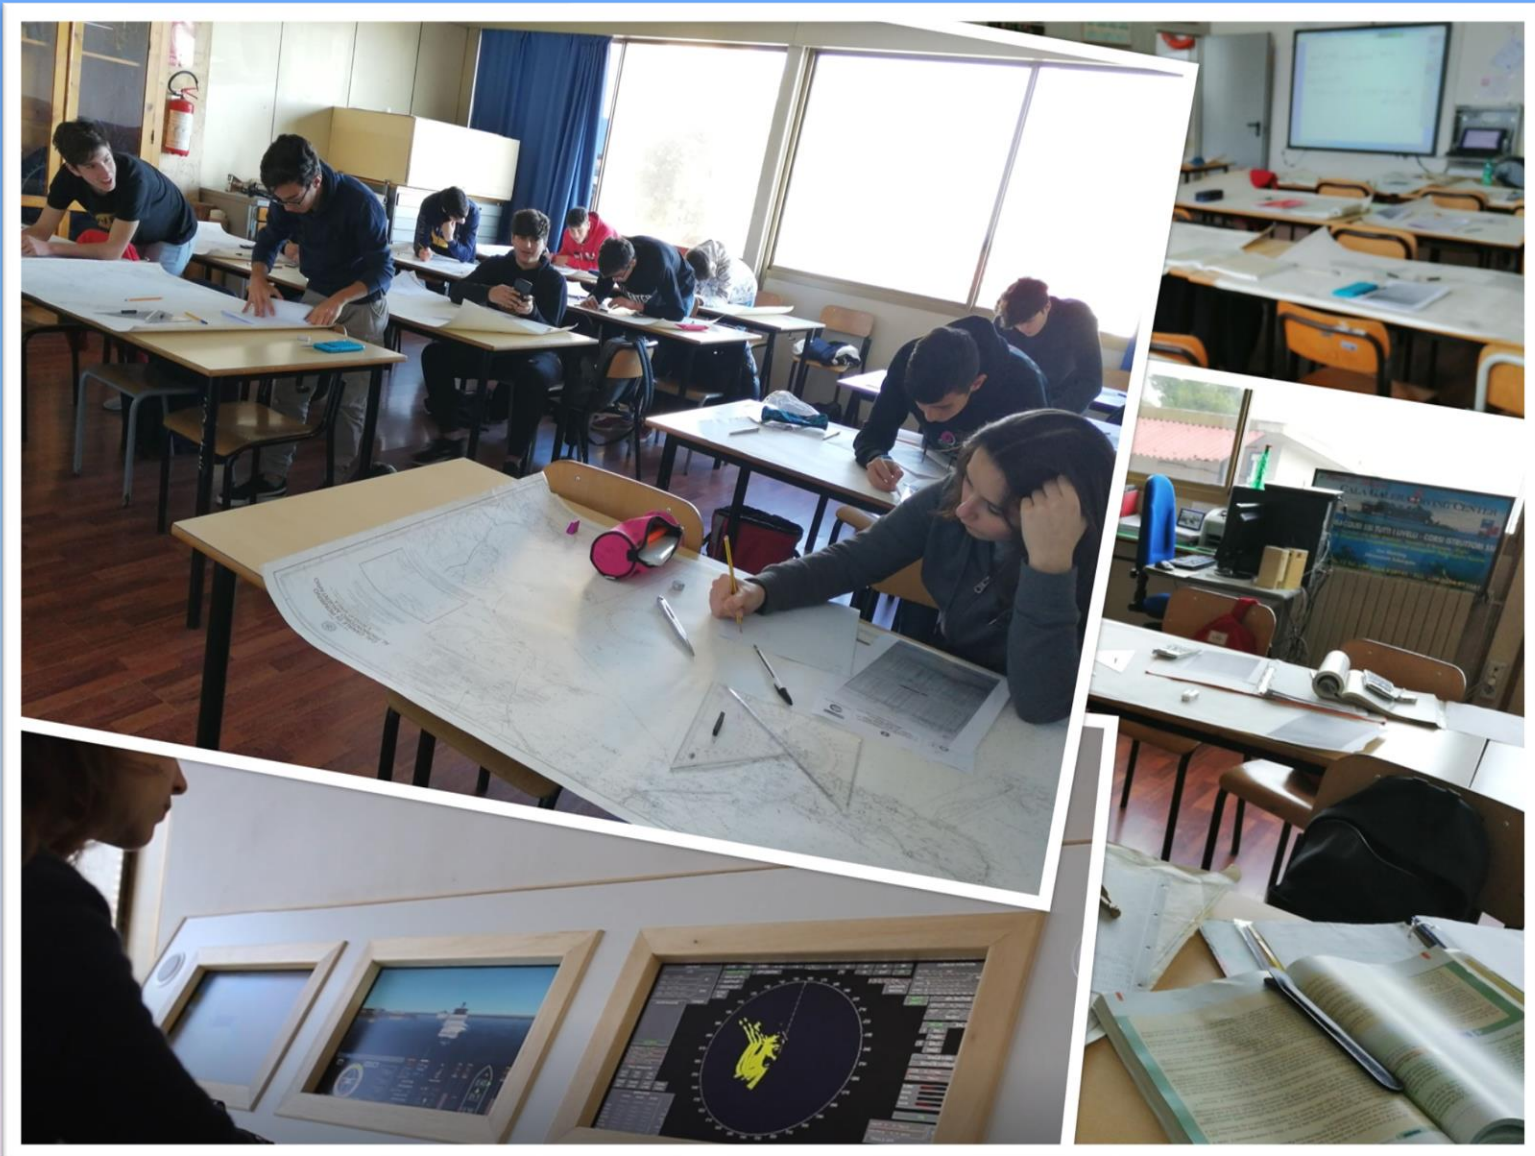

Mechanical Engineering Lab

Mechanical Workshop

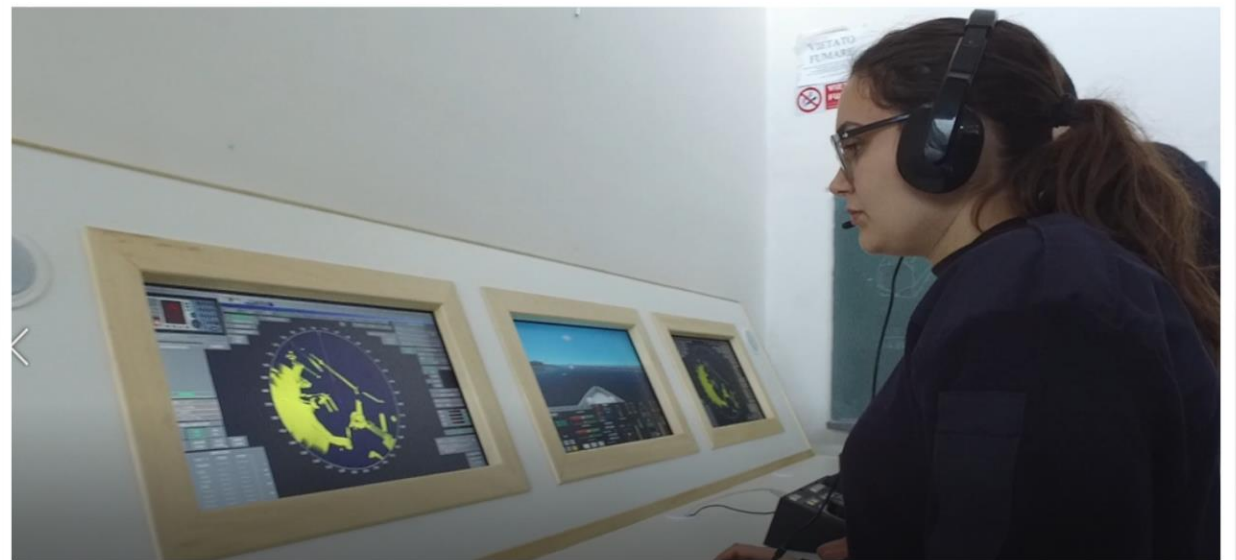

Navigation and Charting Lab

... charting a course ...

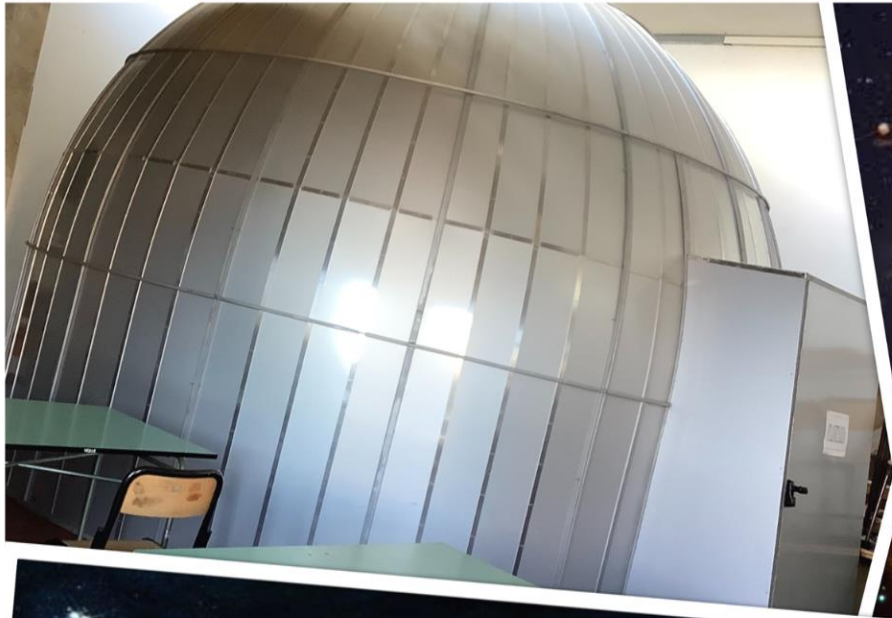

Bridge simulators

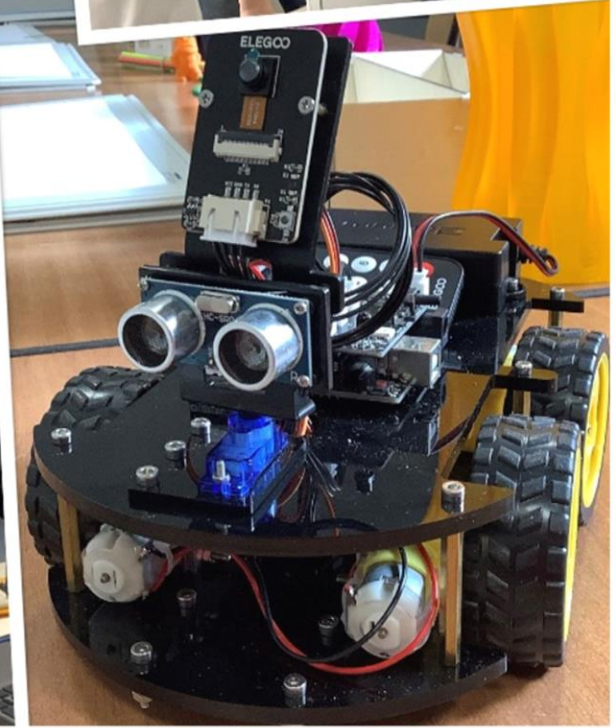

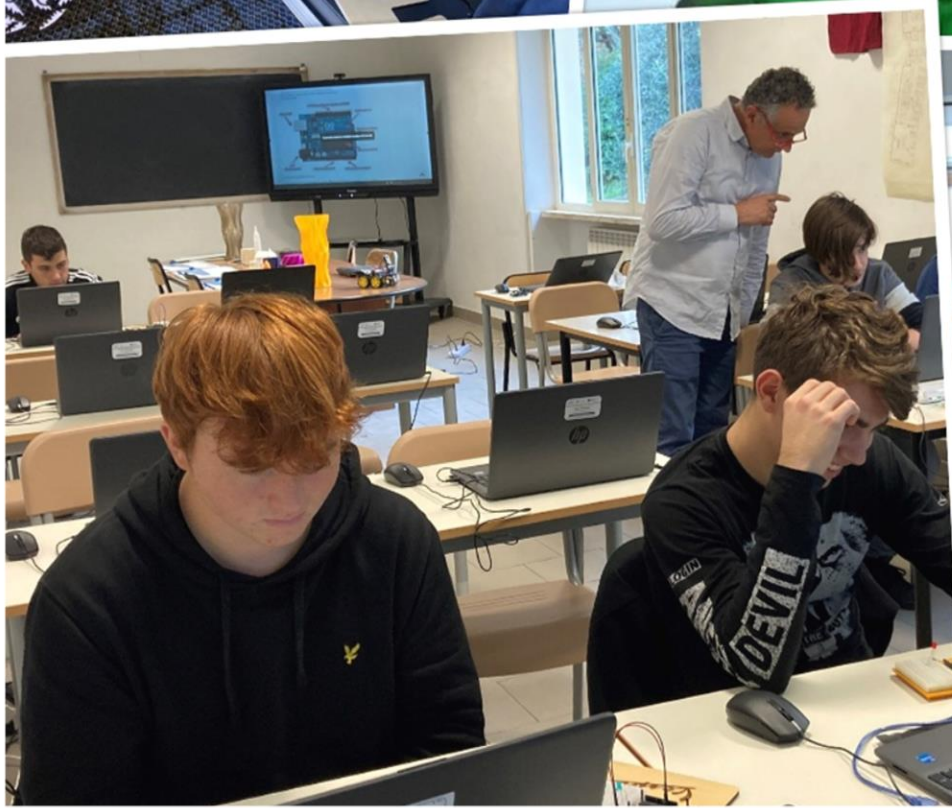

Electrical Engineering Lab

Our Planetarium

STEM Lab

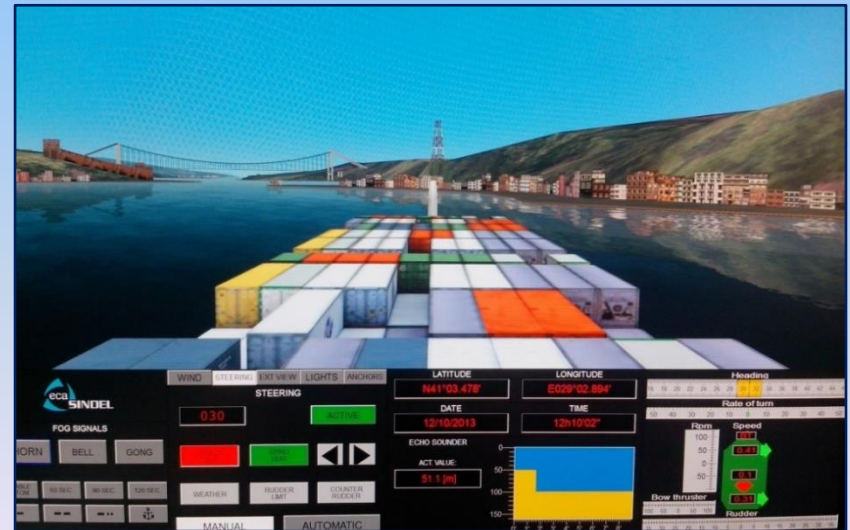

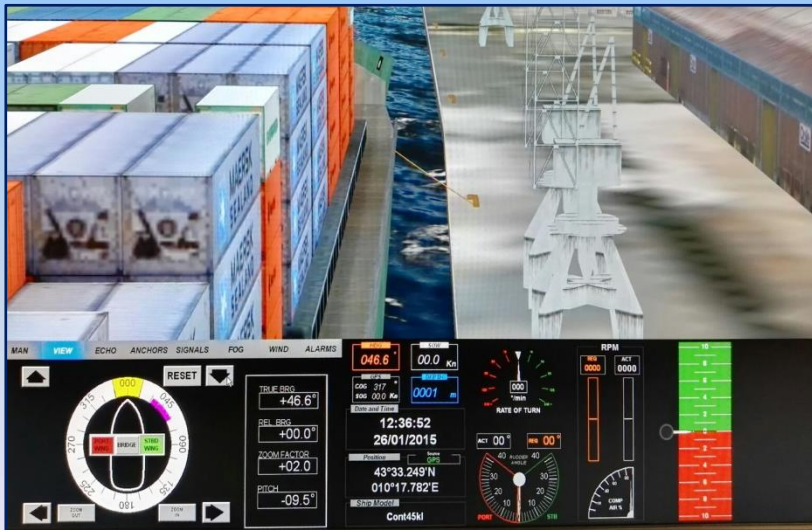

Work Experience (short-term internships)

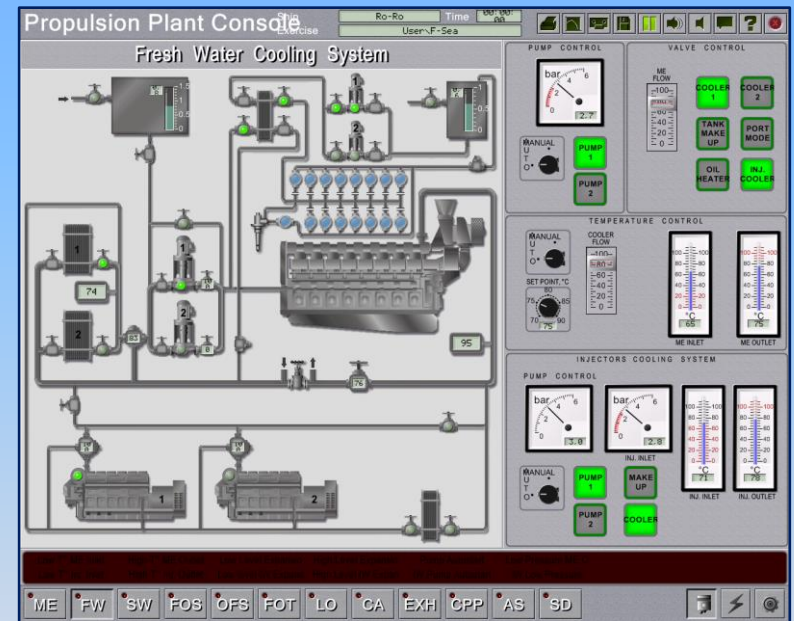

- On board yachts or ships belonging to **Associazione Marittimi Monte Argentario**
- On board the **Maregiglio** ferries (between Giglio Island and the Silver Coast)
- Companies working in the **maritime sector**

- Deck department students also get hands-on experience with bridge simulators, role-playing the positions of commanding officer, navigational officer and radio operator, and practicing sailing during different weather conditions, learning to handle emergencies (such as fire on board) and berthing operations.

- Engine department students also practice managing engine room equipment, systems and plants with our computerised Engine Room simulators.

- They also get the chance to experience short periods of work in local maritime sector companies and shipyards.

Our extra curricular activities

- English and French Language Certifications: B1, B2 and C1 (CEFR levels)
- ICDL courses and exams
- Lifeguard courses
- Diving and Sailing courses
- Italian boating licence (within and over 12 miles from shore)
- Work experience on board Grimaldi Lines ferries during the final year

OUR GRADUATES ONE YEAR LATER

■ Lavoro in mare

■ Università

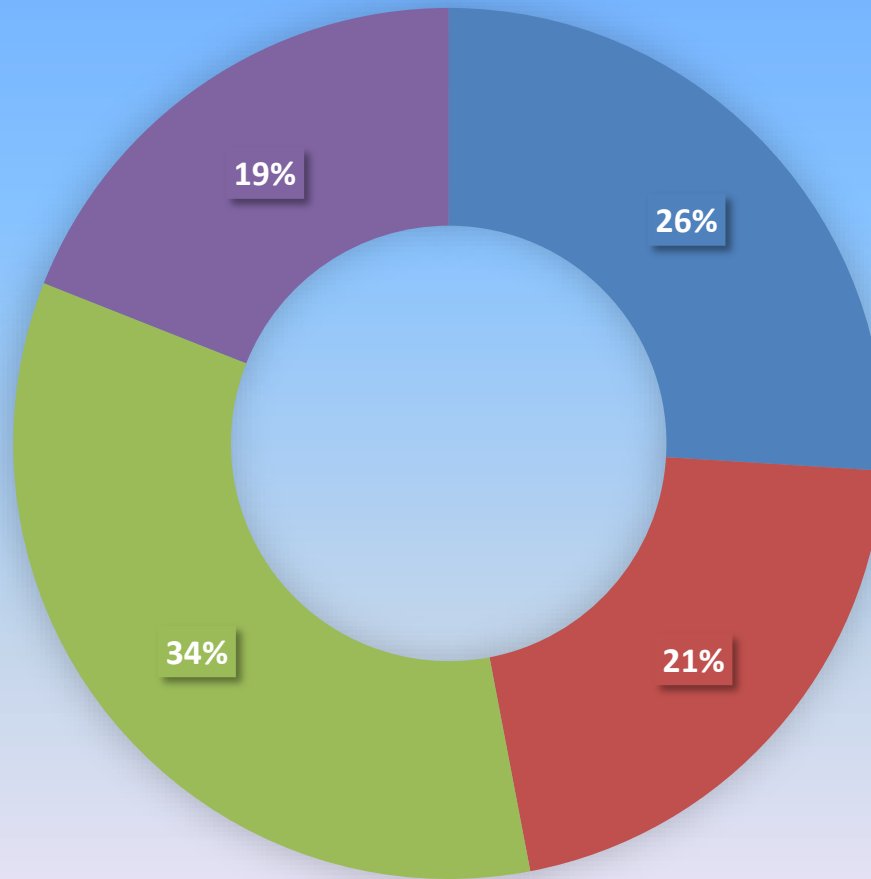

■ Accademie/ITS

■ Lavoro a terra

Academies and ITS

(higher education technical schools for 2-year post diploma courses) :

- Navy:
Livorno
- Merchant navy:
Genova,
Gaeta,
Catania,
Trieste,
Cagliari

University:

- Naval engineering
- Mechanical engineering
- Logistics
- Economy of Tourism
- Mathematics and Physics

Percentages calculated on the total number of graduates from 2007 onwards

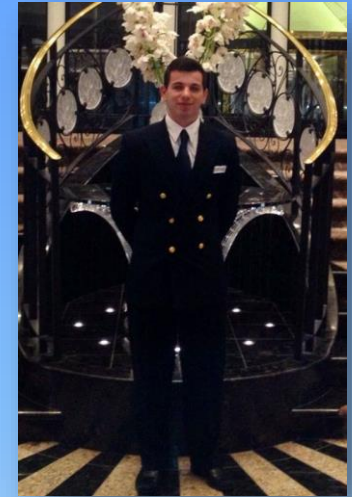

some of our Deck Officers

Sergio Calin

Virvorea Sebastian

Solari Davide

Anastasia Alessio

Cappelli Matteo

Prundeanu Antonia

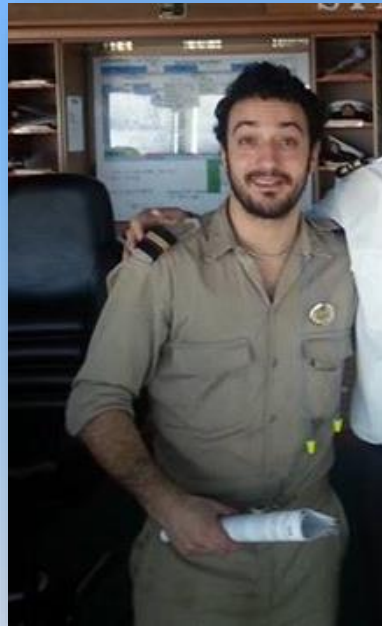

Sabatini Alessio

some of our Engine Officers

Funghi Federico

Vitelli Edoardo

Li Vigni & Guccini

Giagnoni Federico
